

Earlier this year I earned the SRES designation. I am the first one in London to receive this designation, so I am especially pleased about that. Seniors Real Estate Specialists® are REALTORS® qualified to address the needs of home buyers age 55-plus. The SRES® Council awards the SRES® Designation to those members who have successfully completed its education program.

Some seniors with or without specific disabilities have special challenges when deciding to move from one home to another. Accessible housing is not always just wheelchair related.

I am on two committees at the Canadian Centre for Disability Studies. One committee is specifically on Accessibility Issues and the other is about the needs of Canadians with Disabilities and Aging.

The Centre is actually located in Winnipeg, Manitoba. I went out there this Springtime for a three-day “Think Tank” which was made up of people from across Canada who are working with Accessibility Issues. We have monthly conference calls to keep the work of the committees going. <http://www.disabilitystudies.ca/index.htm> is a website that you may find very interesting.

I am also on two committees here in London at City Hall. One is the Accessibility Advisory Committee and the other is London Housing; not

necessarily always accessible, but also affordable housing.

This site is designed for persons with disabilities across Canada that would like to explore the world of self-employment.

This is a terrific site to review while you are exploring the idea of self-employment.

Happy Thanksgiving!

The new format of my website is now up and running. There is a section for Available Accessible Houses throughout South Western Ontario that is updated twice a week:

There is also a list of Upcoming Community Events:

I hope that you will visit the website to find all that is available. Suggestions are always welcome and guest writers are encouraged to participate.
